8x25 Spin Resistant Wire Rope

These wire ropes are specially designed for use when rotation must be kept to a minimum. Strict adherence to breaking-in procedures and proper handling during use are extremely important with these ropes.

According to Federal Specification RR-W-410D. Meets the performance requirements of API-9A, and proposed A.S.T.M. National Standard on Wire Rope for General Purposes, as applicable. IWRC, bright, preformed, EIPS.

8 x 25 Rotation Resistant with IWRC
