Nylon Webb Slings

In 2012 Gator Supply made the decision to go into the Nylon Webb Sling business. This was an easy decision and natural growth step for us because of our experience and expertise in the synthetic rope industry. We offer the following as a reference and guide to Nylon Webb Slings. All of our capabilities are not listed here so please contact us for whatever your sling requirements may be.

Safe Working Load Limits in LBS. Single Ply Slings

	1 Inch Width	2 Inch Width	3 Inch Width	4 Inch Width	6 Inch Width
Vertical	1,600	3,100	4,700	6,200	9,300

Basket	10,960	21,940	32,920	43,900	65,840

Gator stocks most popular sizes and can custom make other sizes and styles. We stock up to 12" Nylon Webb and can be made to any specified length. We can also install wear pads anywhere along the body and cover the eyes depending on the application and wear points. All of our slings come with permanent tags that include size and length plus rated capacities.

Proof testing for any of our slings is also available for a small additional charge and custom slings can typically be manufactured in one to two days.
